COURSES

Vue - The Complete Guide (Udemy)

React - The Complete Guide (Udemy)

The Complete Android 14 & Kotlin Development Masterclass (Udemy)

YASER BEKER

Full-Stack Software Engineer

PROFILE

I'm a full-stack software engineer based in Istanbul, with a B.Sc. in Computer Engineering (with honors). I build complete web systems, admin dashboards and APIs, from database design to the final interface.

I work across Laravel, Vue, Nuxt and Flutter, so I can own a project end to end. I speak Arabic, English and Turkish, and I care about clean code, clear communication and support after launch.

EXPERIENCE

Endless Group — Istanbul, Türkiye

Software Engineer · Full-time — Sep 2025 - Present

- Building complete web systems and admin dashboards, from the database to the interface.
- Developing backend services and REST APIs with Laravel and PHP.
- Designing data storage and caching with MySQL, MongoDB and Redis.

Laravel · PHP · MySQL · MongoDB · Redis · Vue · Nuxt

INDATA Industrial Data Technologies — Istanbul, Türkiye
